

## 2021 年 6 月大学英语六真题答案

### 答案：卷一

#### Part I Writing 写作（短文写作）

Directions: For this part, you are allowed 30 minutes to write an essay based on the chart below. You should start your essay with a brief description of the chart and comment on China's achievements in higher education. You should write at least 150 words but no more than 200

words.

范文：

What is illustrated in the table clearly displays the gross enrolment ratio in higher education in China from 1990 to 2019. During this period, there has been a dramatic increase from 3.4% to 51.5% in higher education ratio in China.

Actually, this seemingly simple chart subtly discloses a prevailing phenomenon that has attracted our attention. There are numerous reasons, from my perspective, accounting for the phenomenon and I would like to explore only a few of the most significant ones as follow. In the first place, with the rapid increase in Chinese economic development and people's income, people in growing numbers can afford the higher education; In the second place, the country begins to realize the importance of education, pays more attention to the development of education, and improves the people's cultural literacy; Finally, Chinese people's awareness of education has been enhanced annually.

Considering the points mentioned above, we can predict with assurance that the

phenomenon of the gross enrolment ratio in higher education in China will continue maintaining an upward trend in the following years. To sum up, we should keep in mind the significance of higher education. The whole society should make every effort to advocate it. Only in this way can we not only meet a brighter future, but live a better life.

### Section B 信息匹配（长篇阅读）

#### How Marconi Gave Us the Wireless World

- 36.[F] Marconi invented the idea of global communication--or, more straightforwardly, globally networked, mobile, wireless communication.
- 37.[I] Marconi placed a permanent stamp on the way we live.
- 38.[D] In 1901 he succeeded in signaling across the Atlantic, from the west coast of England to Newfoundland in the US-A, despite the claims of science that it could not be done.
- 39.[J] At the same time, Marconi was uncompromisingly in-dependent intellectually.
- 40.[C] Between 1896 when he applied for his first patent in England at the age of 22, and his death in Italy in 1937 Marconi was at the center of every major innovation in electronic communication.
- 41.[E] Marconi's career was devoted to making wireless communication happen cheaply, efficiently, smoothly, and with an elegance that would appear to be intuitive and un-complicated to the user--user-friendly, if you will.
- 42.[K] The most controversial aspect of Marconi's life--and the reason why there has been no satisfying biography of Marconi until now--was his uncritical embrace of Benito Mussolini.
- 43.[G] In his lifetime, Marconi foresaw the development of television and the fax machine, GPS, radar, and the portable hand-held telephone.
- 44.[B] Today's globally networked media and communication system has its origins in the 19th century, when, for the first time, messages were sent electronically across great distances.
- 45.[H] Marconi's biography is also a story about choices and the motivations behind the motivations behind them.

#### Part IV Translation 翻译 (汉译英)

海南是仅次于台湾的中国第二大岛，是位于中国最南端的省份。海南岛风景秀丽，气候宜人，阳光充足，生物多样，温泉密布，海水清澈，大部分海滩几乎全年都是游泳和日光浴的理想场所，因而被誉为中国的四季花园和度假胜地，每年都吸引了大批中外游客。

海南 1988 年建省以来，旅游业、服务业、高新技术产业飞速发展，是中国唯一的省级经济特区。在中央政府和全国人民的大力支持下，海南将建成中国最大的自由贸易试验区。

Hainan, the second in size island after Taiwan, is situated in the most south part of China as a province, which is praised as China's garden of seasons and holiday paradise for the reason of its lovely scenery, hospitable climate, exuberant sunshine, various creatures, intensive hot springs, crystal water and most beaches optimal for swimming and sunbathing almost throughout the year. Thus it captivates a substantial number of tourists at home and abroad annually. Since being provinciated in 1988, the tourism, service and high-tech industries of Hainan have been accelerating, making it the only special economic zone at provincial level in China. Under the vigorous backup of the central government and the people of China, Hainan will be built into China's largest pilot free trade zone.
