

2021 年 6 月英语六级真题答案：卷三（完整版）

Part I Writing 写作（短文写作）

Directions: For this part, you are allowed 30 minutes to write an essay based on the chart below. You should start your essay with a brief description of the chart and comment on China's achievements in poverty alleviation. You should write at least 150 words but no more than 200 words.

范文：

As is shown in the above chart, China has made great progress in poverty alleviation. In 2012, there were more than 75 million rural people in poverty, but the number has been decreasing year by year. In 2020, all the impoverished people have been lifted out of poverty.

China's success in poverty alleviation is hard-earned and three primary factors could contribute to such a great achievement. First of all, China has formulated many policies to promote the economic development of poor areas, and those poor people can improve themselves and make a better living with cultural, educational and technical support. Secondly, as the overall economy grows rapidly, the business environment of China has improved a lot. Given this, the poor areas have obtained better opportunities to develop their industries with distinctive local characteristics. Thirdly, China's success in poverty alleviation is a great achievement in China's history, which is achieved through the concerted efforts of the country and its people.

Thus, we can conclude that China has made remarkable progress in eradicating poverty, which not only brings great benefits to those poor people, but promotes China's overall development.

Qinghai is a province in northwest China with an average altitude of over 3, 000 meters, and most of the areas are high mountains and plateaus. Qinghai Province is named after Qinghai Lake, the largest saltwater lake in China. Known as “the most beautiful lake in China”, Qinghai Lake is one of the most popular tourist attractions and a paradise for photographers and artists.

Qinghai has magnificent mountains, vast territory and abundant resources. The abundant reserves in oil and natural gas have greatly promoted the economic development of many cities in the province. Moreover, Qinghai is especially famous for its rich water resources, which is the birthplace of the Yangtze River, the Yellow River and the Lancang River, the three major rivers in China, and plays an important role in China's water ecology.
